ROLLING STALK CHOPPER

The double rotor rolling stalk chopper is a versatile tool with applications in most farming practices, from ridge-till to conventional farming. With no gearbox or U-joints to maintain, this low-maintenance tool will provide years of dependable service.

MODEL 7000

Designed for versatility, the 7000 Stalk Chopper features different rotor angle adjustments. Select from completely straight through any angle to attain the desired aggressiveness.

MODEL 5400

The proven Model 5400 is an aggressive Stalk Chopper. It can eliminate a discing or the need to disc in many instances.

High Speed Capability With Ground Driven Dependability.
