Besler 6000 Series Chop-N-Slicer

Chop Stalks and Prepare Seed Bed in One Pass!!

One Pass Seed Bed Preparation!

The *Chop-N-Slicer* will chop stalks, remove the root crown, and prepare the seed bed for planting with one pass through the field. It will also maintain the integrity of the ridge or bed.

This ground driven machine with high speed capability will save time and money when preparing the ground for planting.

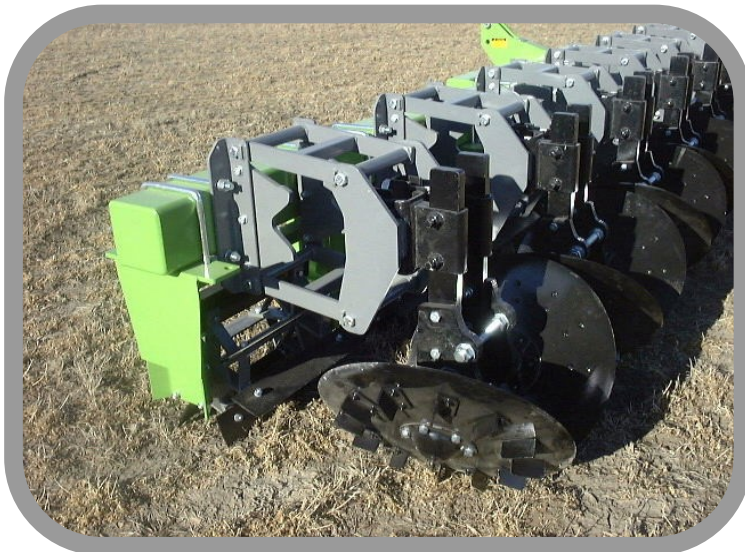

High Speed Capability With Ground Driven Dependability
