Besler

2800 Series

Cotton Stalk Puller

- * Removes the Cotton Stalk
- * Reduces Nematode Populations
- * Levels the Seed Bed
- * Incorporates the Cover Crop

The Cotton Stalk Puller is ideal for the removal of Cotton Stalks. It can be adjusted to pull the cotton stalk from the ground. The rolling basket on the floating parallel linkage will level the seed bed and incorporate the cover crop. This allows the farmer to minimum till with little ground disturbance in a one trip operation.

2800 Series

Cotton Stalk Puller

Besler Features
