Besler 2000 Series Root Slicer

*** Pre-plant seed bed preparation * Fall or Spring * Removes weeds in drill row
* Dries and warms the soil * Better stand and emergence**

The Root Slicer is ideal for pre-plant seed bed preparation in a variety of crops such as corn, milo and sunflowers.

It can be adjusted to cut the root crown from the ground allowing minimum till farming with little ground disturbance.

Low tractor horsepower, and high-speed operation allows for quick and efficient ground preparation.

It is available in 4 to 16 row machines with an option of rigid or parallel linkage row units on a rigid or folding tool bar.

High Speed Capability With Ground Driven Dependability.

Besler Features

- Sealed Bearings
- Available in sizes 4 row through 16 row
- Rigid or folding models are available
- Rigid or Parallel Link Models
- Rugged 7x7 tool bar.

Besler Options

Comes standard with 24" cleated discs

- Available with Parallel Linkage.
- Gauge wheels for added depth control

- **Cuts Crown Root**
- **Maintains Integrity of the Ridge or Bed**
- **Hi-Speed Operation - Low Horsepower**
- **Advantageous in minimum-tillage practices**
